### **3. Site Address Details**

Please enter the full postal address of the site. Enter the house/flat number and / or name (if appropriate) and street name in the Street address field. The town, county, country and full postcode should also be entered. If the application relates to open ground describe its location as clearly as possible (e.g. 'Land to rear of 12 to 18 High Street' or provide a grid reference).

When you submit a location plan, it is recommended that this is at a scale of 1:1250 or 1:2500 (or larger), showing at least two named roads and surrounding buildings. The properties shown should be numbered or named to ensure that the exact location of the application site is clear.

The application site must be edged clearly with a red line on the location plan. It should include all land necessary to carry out the proposed development (e.g. land required for access to the site from a public highway, visibility splays (access around a road junction or access, which should be free from obstruction), landscaping, car parking and open areas around buildings).

A blue line must be drawn on the plan around any other land owned by the applicant, close to or adjoining the application site.

All plans must be to a metric scale and any figured dimensions given in metres and a scale bar should be included.

### **4. Proposed Road**

What constitutes an 'alteration' or 'rearrangement' for a farm or forestry road will be a matter of fact and degree, depending on the circumstances of the case. If you intend to carry out works to an existing road, you should contact your Local Planning Authority in advance to discuss the proposal.

### **5. Agricultural and Forestry Developments**

On holdings totalling more than 5 hectares, development is not permitted on separate parcels of land of less than 1 hectare. For holdings of less than 5 hectares development is not permitted on separate parcels of land of less than 0.4 hectares. A separate parcel of land is defined as being separated by land in different ownership, or for example, by a public highway.

The reference to a 'metalled road' relates to a hard surfaced including asphalt, concrete, paving stones, bricks and cobbles, etc.
