Who we are

In 2005 Social Services was re-organised into the Directorate of Children, Education and Social Care. This brings together a range of key services for the population of Stockton-on-Tees including adult services.

Who do we help?

Stockton-on-Tees Borough Council can offer help to people aged 18 or over who live in Stockton-on-Tees. Assistance can range from guidance and information to meet adults care and support needs.

We support adults whose needs arise from or are related to a physical or mental impairment or illness. As a result of their needs the adult is unable to manage their daily life and there is likely to be a significant impact on the adult's **well-being**.

We shall also offer help, where needed, to carers and young carers of anyone falling into the above categories who provides necessary care, whatever their age or wherever they live, provided the person they care for is a resident of Stockton-on-Tees Borough.

How can we help?

We can either provide care and support directly, and/ or purchase services on your behalf from independent providers or work with you so you can manage your own care through a personal budget/direct payment.

There is an increasing choice of care and support available including:

- Preventative and early intervention services
- Information directory and leaflets of Stockton-on-Tees Council and local community services
- Equipment and adaptations to assist with daily living
- Reablement to help those recovering from a period of ill health
- Stockton-on-Tees joint working with health to offer community therapy and reablement in peoples own home to sustain independent living
- Personal care and support at home
- Supporting people with long-term conditions and at the end of their life
- Support for carers and young carers
- Day services offering social contact, recuperation and the development of self-care skills
- Specialist support and advice for people with visual and/or hearing impairment
- Help into employment, education, training and volunteering
- Advice on money and benefits
- Safeguarding adults when there are concerns of neglect or abuse by another person or institution

Our aim is to maintain personal independence and help people live in their own homes for as long as possible.

In cases where it is no longer possible for someone to continue living at home in safety, we can advise about or arrange long term residential or nursing home care, which includes help with funding when appropriate.

Personalisation

The way we support people who are eligible for services has changed as a result of Personalisation.

Personalisation, giving you choice and control and enabling you to live as you wish, whether you need support from others now, or in the future.

Stockton-on-Tees Borough Council is committed to putting every person who needs our support at the heart of all that we do. Personalisation assists individuals, carers and young carers who have care and support needs by providing flexibility in the choice and control of their own care and support to achieve a fulfilled life and connect with society.

If you would like further information about Personalisation, Self-Directed Support and/or any other Adult Care services please get in touch with your Care Manager or, if you do not have one, visit our web site at:

www.stockton.gov.uk/adultservices

Are you eligible for help?

Every person's situation is unique, and we carefully consider each request for support.

If we think you may require care and support you will be offered an assessment.

A Care Act assessment is an opportunity to talk through your circumstances and wellbeing, with a Care Manager to identify your care and support needs. Together, we may consider aspects of your life that are causing you difficulty such as managing and maintaining nutrition, maintaining personal hygiene, maintaining toilet needs, being appropriately clothed, how safe do you feel in your own home, maintaining a habitable home environment, developing and maintain family and other relationship, accessing and engaging in work, education or volunteering, making use of facilities in the community, carry out caring responsibilities for a child.

Through this assessment we will be able to work with you to determine whether you are eligible for care and support.

In order that our care services are provided fairly and to those in greatest need we use the Care Act 2014 National Minimum Eligibility Threshold to determine who is eligible for support. Those risks and needs identified through the Care Act assessment process allow

the amount and type of care and support individuals require to be established. For further details visit our web site at: www.stockton.gov.uk/adultservices

Paying for services

Our assessment and advice services are free. We do have a charge for care services such as:

- Personal Care
- Transport
- Day Services
- Telecare - Equipment that supports independent living, such as personal alarms and monitoring equipment
- Direct Payments/Personal Budget
- Housing Related Support

We will assess your ability to contribute to the cost of your care and support. Your contribution will be worked out by assessing, with you, your income and other assets expenditure. This will tell us whether or not you can afford to make any contribution to your care and support costs and if so how much.

If you are assessed as being able to pay all or part of your care costs you will be sent an invoice every four weeks. This will show how much you need to pay and how you can arrange to pay it. If you do not agree with the level of your assessed contribution or your circumstances change you can ask the Client Financial Services Team for a review.

Supporting carers and young carers

A carer or young carer is anyone who looks after another person providing necessary care and support for example a relative, friend or neighbour. Stockton-on-Tees Borough Council value and respect the role of unpaid carers and support them whenever possible.

Stockton-on-Tees Borough Council is committed in supporting carers and young carers to access carers support with early intervention to prevent a crisis, provide advice and information and independent advocacy to access support to plan their future.

Carers and young carers have the rights to an assessment on the appearance of their own need, even when the person they care for has declined an assessment.

A carer or young carer can be eligible for support whether or not the adult they care for has eligible care and support needs. Consideration of fluctuating needs of the adult can impact on the carer or young carer and will be taken into account when assessing for eligible needs.

The Care Act 2014 has introduced a Carers National Minimum Eligibility Threshold which guides a trained assessor to make an eligibility decision.

For further details see Stockton-on-Tees Borough Council factsheets:

[Safeguarding adults](#)

Adults may be frail or have ill health and be unable to protect themselves against neglect, harm or exploitation. We have procedures in place to safeguard adults against abuse.

If you are concerned about the welfare of someone you know please contact our First Contact Service (see page 12 for contact details). All concerns and allegations are taken seriously.

For further details see Stockton-on-Tees Borough Council leaflets:

How the Adult Safeguarding Process Works in Stockton-on-Tees

[Information about you](#)

By law, anyone who works for Stockton-on-Tees Borough Council must keep information about you confidential. We will not gather more information than we need to be able to provide you with the support you require.

To make sure you get the best possible support we may need to share some information about you with other people. We will discuss and agree with you which other health or social care professions, or services we will need to share your information with. Anyone who receives information from us must keep it confidential by law.

We will only pass on your information to others, without your consent, where there is a safeguarding concerns about you or others or where we are required to by law.

You have a right to see your care records. The Data Protection Act allows you to have access to the information we have about you. There are circumstances where access to your record might be limited, for example if it was felt to be in your best interest or for the protection of others.

If you wish to see your care record we need a written request from you.

Commenting on the services you receive

We encourage compliments, comments and/or complaints as a means of improving our services. If you are making a complaint we will agree with you how this will be taken forward. We investigate the issues you raise and try to resolve your complaint as quickly as possible, explaining any actions we are taking and how you can take matters further should you still remain dissatisfied.
