EXECUTIVE SUMMARY

Hartburn Ward is in South Stockton is home to just over 6,000 people. It is predominantly home to older families with some adult children at home who have lived for some years in the same, suburban, 3-bedroom, semi-detached, mid-range home, which they own. It is the 24th (out of 26) most deprived Ward in the Borough.

In terms of Adult Services, the Ward is home to above Borough, North East and England proportions of residents providing unpaid care, households occupied by one family where all individuals are aged 65+ and households occupied by a single person aged 65+. At the same time, the Ward is home to below Borough average proportions of adults receiving adult social care services and slightly above Borough average proportions of new recipients of the same. Additionally, just over 1% of all recipients of home care provided by the Council live in this Ward.

Regarding Arts, Culture and Leisure, the Ward is home to below Borough average proportions of households likely to participate in sport up to and/or more than 2 hours per week and likely to access entertainment sites online. It is also home to an above Borough average proportion of households unlikely to exercise by jogging, walking or going to the gym.

The Ward’s characteristics in terms of Children and Young People are as follows. Hartburn has a substantially above Borough average uptake of free childcare for 2- year olds and below above Borough average proportions of vacant 30-hour places for 3 and 4 year olds; pupils (up to Year 11) who are eligible for free school meals; and, children and young people (up to Year 14) recorded with SEN involvement. At the same
time, the proportion of young people aged 16 – 18 in government training schemes is greater in this Ward than it is across the Borough and the proportion of young people aged 16 – 18 in employment and apprenticeships is smaller than it is across the Borough overall.

Comparing the Ward with the Borough, the North East and England overall, the proportion of pupils achieving a good level of development at Early Years Foundation Stage (EYFS) is larger as is the proportion of pupils achieving Expected Standard in combined Reading, Writing and Maths at Key Stage 2; pupils’ average Attainment 8 score; pupils’ average Progress 8 score; the proportion of pupils achieving 5+ in English and Maths GCSE; the proportion of pupils achieving 4+ in English and Maths; and, the proportion of young people aged 16 – 18 in full time education.

Considering the Ward against the North East and the Borough only, it is home to zero young people aged 16 – 18 not in education, employment or training (NEET) and zero young people aged 16 – 18 NEET because unavailable for work. In terms of safeguarding, the Ward is home to just 0.3% of the Borough’s Children in Need (CiN), none of the Borough’s children subject to a Child Protection Plan (CPP) and none of the Borough’s Children in Our Care (CiOC).

Considering Community Safety, the Ward was the location for around 1% of the Borough’s recorded crimes reported, the Borough’s recorded criminal damage and arson offences and the Borough’s recorded theft offences and recorded anti-social behaviour incidents. It was also home to around one 10th of the Borough’s total domestic abuse crimes.

In comparison with the Borough, the North East and England, the Ward was the location for notably fewer recorded crimes per 1,000 people; criminal damage and arson per 1,000 people; theft offences per 1,000 people. It is also the location for a much lower rate of ASB incidents per 1,000 people than across the Borough and England overall and the rate of domestic abuse crimes per 1,000 people is lower than it is across the
Borough. Considering fires, the Ward was the location for 0.007% of all secondary fires in England and none of the deliberate primary fires in England.

In terms of **Economic Regeneration and Transport**, compared with the Borough, the North East and England overall, the Ward is home to a smaller proportion of residents aged 16 – 64 claiming Job Seekers Allowance (JSA) and residents aged 18 – 24 claiming JSA or Universal Credit. At the same time, the Ward is also home to smaller proportions of residents who have elementary occupations; residents who are process, plant and machine operatives; residents who work in sales and customer service occupations; and, adults with no qualifications. The Ward is also home to a larger proportion of residents who are economically active self-employed than is the case across the Borough and the North East, but not England overall and home to a larger proportion of residents aged 16 – 74 with a degree, HNC or professional qualification than is the case across the Borough, the North East and England overall.

In terms of travelling to work, the Ward is home to a smaller proportion of residents who travel to work by bus or train and/or who travel to work on foot than is the case across the Borough, the North East and England overall.

Comparing the Ward with the Borough overall, it is home to a slightly larger proportion of households likely to have a net annual income of <£15K; a substantially smaller proportion of households likely to be finding it difficult/very difficult to cope on income; a smaller proportion of households unlikely to hold a current account; and, smaller proportions of households likely to surf the internet everyday/most days, use Facebook every day and use Twitter every day.
Regarding **Environment and Housing**, the Ward is the location for 0.5% of the Borough’s fly tipping removals. Compared with the Borough, the North East and England, the Ward is home to a smaller proportion of households in fuel poverty, a much larger proportion of home owners, zero social renters and a much smaller proportion of private renters.

The mean and median (average) house prices for all sold property is higher than for the Borough and the North East and lower than for England overall.

In comparison with the Borough overall, the Ward is home to a larger proportion of households in Council Tax bands B, C, D and F; the same proportion of households in Council Tax H; and, smaller proportions of households in Council Tax bands A, E and G.

Considering **Health and Wellbeing**, the Ward is home to better than England average numbers of mothers who smoke during pregnancy; breastfeeding mothers; children ‘not ready’ for school; new cases of cancer; NHS health checks completed; life expectancy (years) for males and females; emergency hospital admissions for all causes and chronic obstructive pulmonary disorder; and, deaths from all causes (all ages and <75 years), cancer, circulatory disease and respiratory disease. It is also home to worse than England average for number of low birthweight babies; numbers of 11-year olds who are obese; people aged 16+ who binge drink; and, emergency admissions to hospital for chronic heart disease, stroke and myocardial infarction.

In terms of **Strong Communities**, broadly speaking, the Ward has smaller proportions of residents aged 0 – 19 and residents aged 16 – 64 and a larger proportion of residents aged 65+ than is the case across the Borough, the North East and England. Also, in comparison with the Borough, the North East and England overall, the Ward is home to smaller proportions of families with dependent children, BME residents...
(primarily Pakistani or British Pakistani) and residents identifying as non-Christian. The Ward is also home to a larger proportion of residents identifying as Christian than is the case across the Borough, the North East and England overall.

Around 90% of the population aged 18+ is registered to vote and around half of young people aged 16 and 17 are registered thus.

*PLEASE NOTE: If there is no data shown against the Ward name – either in a chart, or table in this Ward Profile – this means that the actual data value is 0 (zero). It does not mean that the data is missing.
Most Dominant Household Group - HG2 Suburban Stability
(34.2% of all households in the Ward)
(11.7% of all households in the Borough)

The most likely key features of this group are:
- Older families
- Some adult children at home
- Suburban mid-range homes
- Three bedrooms
- Have lived at same address for some years
- Research on internet

The most likely characteristics of this group include:
- Most are likely to be aged 56 - 60
- Household income likely to be between £30k - £39k
- Household composition likely to be ‘family and other adults’
- Likely to have one child
- Likely to own home
- Likely to live in Semi-Detached properties

This group is most likely to have the following health characteristics:
- Most are likely to be in very good or good health (82%)
- 4.9% are likely to be in bad or very bad health
- 21% are likely to have health problems or a disability which limits work/activities
- 42.5% are likely to not take exercise

This group is most likely to have the following communication channel preferences and habits:
- Preferred methods of contact is likely to be email (59%) and post (14%)
- 95% are likely to access the internet daily or several times a day

Second Most Dominant Household Group – HG5 Senior Security
(32.3% of all households in the Ward)
(10.4% of all households in the Borough)

The most likely key features of this group are:
- Elderly singles and couples
- Homeowners
- Comfortable homes
- Additional pensions above state
- Don’t like new technology
- Low mileage drivers

The most likely characteristics of this group further include:
- Most are likely to be aged 76 - 80
- Household income likely to be under £15k
- Household composition likely to be ‘single’
- Likely to have no children
- Likely to own home
- Likely to live in a bungalow

This group is most likely to have the following health characteristics:
- Most are likely to be in very good or good health (80%)
- 5.3% are likely to be in bad or very bad health
- 29% are likely to have health problems or a disability which limits work/activities
- 56% are likely to not take exercise

This group is most likely to have the following communication channel preferences and habits:
- Preferred methods of contact is likely to be email (52%) and post (20%)
- 94% are likely to access the internet daily or several times a day
Adult Services

*Our vision is that people can get the right level and type of support at the right time to help, prevent, reduce or delay the need for ongoing support and maximise their independence.*

This section provides information about each of the following subjects:

- Provision of unpaid care
- Households aged 65+
- Adult social care services and support
- Home care

Big plans for the care we provide
### AS6 - % of households occupied by one family, all aged 65+

Arts, Culture and Leisure

Our vision is of a Borough where our heritage, festivals, cultural activities and leisure facilities help us attract visitors and investment, and where sport and active leisure opportunities help people sustain healthier lifestyles.

This section includes information about each of the following subjects:
- Sport
- Exercise
- Entertainment

Big plans for great experiences
ACL1 - % of Households likely to participate in Sport up to 2 hours/week

- Hartburn Ward: 5.6%
- Stockton on Tees Borough: 12.8%

ACL2 - % of households likely to participate in Sport more than 2 hours/week

- Hartburn Ward: 10.6%
- Stockton on Tees Borough: 12.1%

ACL3 - % of households unlikely to exercise by jogging, walking or going to gym

- Hartburn Ward: 56.5%
- Stockton on Tees Borough: 49.0%

ACL4 - % of households likely to access Entertainment Sites On-Line

- Hartburn Ward: 19%
- Stockton on Tees Borough: 24%
Children and Young People

Our vision is of a great place to grow up, where children and young people are protected from harm and supported to be the best they can be in life.

This section provides information about each of the following subjects:
- Childcare
- Free school meals (FSM)
- Special Educational Needs (SEN)
- Education
- Post 16 Education, Employment and Training
- Children in Need (CiN)
- Child Protection Plans (CPP)
- Children in Our Care (CiOC)

Big plans for the young people of the Borough

**NOTE:** Attainment 8 measures a student’s average grade across eight subjects – the same subjects that count towards Progress 8. The eight subjects fit into three groups: English and Maths; English Baccalaureate (Ebacc - the highest scores from the sciences, computer science, geography, history and languages); and, the Open group (any remaining GCSEs and other approved academic, arts or vocational qualifications).

**NOTE:** Progress 8 measures a student’s progress between Key Stage 2 and Key Stage 4 across eight key subjects. It shows whether students have performed to expectation, based on a value-added measure using Key Stage 2 English and Maths as a baseline. It’s checked by getting a sample of Year 11 students to sit English and Maths reference tests in March before their June GCSEs. Progress 8 only compares schools with similar intakes and is designed to encourage schools to offer a broad, well-balanced curriculum and is used towards determining the ‘floor standard’ for schools.

- 25.7% likely to use Twitter every day/most days
Environment and Housing

Our vision is to make the Borough a better place to live and a more attractive place to do business with clean streets, carefully tended parks and open spaces, affordable and desirable housing.

This section provides information about each of the following subjects:
- Fuel poverty
- Fly tipping
- House prices
- Home ownership
- Council Tax

Big plans for our places and open spaces
Fuel poverty estimates are published at Lower Super Output Area (LSOA) level and are modelled drawing from national data included in the English housing survey. Caution must be taken when inferring trends from the figures as there are instabilities associated with the estimates and an unknown level of accuracy. Additionally, Ward level estimates have been calculated using a “best-fit” approach using the LSOA estimates. This further impacts on the quality of figures so further caution is advised. Published LSOA data can be found here: [https://www.gov.uk/government/statistics/sub-regional-fuel-poverty-data-2018](https://www.gov.uk/government/statistics/sub-regional-fuel-poverty-data-2018)
