EXECUTIVE SUMMARY

Stockton Town Centre Ward is in Stockton North and is home to just over 7,100 people. It is predominantly home to people who rent their homes privately, live in low cost housing, have a low length of residence, likely to be single or sharing accommodation with few landline telephones. The Ward is the most deprived in the Borough (out of 26).

In terms of Adult Services, the Ward is home to below Borough, North East and England proportions of residents providing unpaid care and houses occupied by one family all aged 65+. On the other hand, the Ward is home to above average proportions of single people aged 65+ occupying a house than is the case when compared with the Borough, the North East and England. The Ward is home to above Borough average proportions of adults receiving adult social care services and new recipient of the same. Additionally, 1.5% of all recipients of home care provided by the Council live in this Ward.

Regarding Arts, Culture and Leisure, the Ward is home to above Borough average proportions of households likely to participate in sport up to 2 hours per week; and, more than 2 hours per week. This Ward is home to below average proportions of households unlikely to exercise by jogging, walking or going to the gym; and likely to access entertainment sites online.

The Ward’s characteristics in terms of Children and Young People are as follows. Stockton Town Centre has below Borough average uptake of free childcare for 2-year olds; proportion of vacant 30-hour places for 3 and 4-year olds; proportion of young people aged 16 – 18 in government training schemes; and, proportion of young people aged 16 – 18 in full time education. On the other hand, the Ward has an
above Borough average amount of pupils (up to Year 11) eligible for free school meals; and, proportions of children and young people (up to Year 14) recorded with SEN involvement.

Comparing the Ward with the Borough, the North East and England overall, the proportion of pupils achieving a good a level of development at Early Years Foundation Stage (EYFS) as at the end of Reception is lower; the proportion of pupils achieving Expected Standard in combined Reading, Writing and Maths at Key Stage 2 is lower; pupils average Attainment 8 score is lower; pupils average Progress 8 score is greater; the proportion of pupils achieving 4+ in English and Maths is lower; and, the proportion of young people aged 16 – 18 in full time education is lower. Comparing the Ward with the North East and England, the proportion of pupils achieving 5+ in English and Maths GCSE is higher, compared with the Borough, the proportion is lower.

Considering the Ward against the North East and Borough only, it is home to fewer young people aged 16 – 18 not in education, employment or training (NEET) and more young people aged 16 – 18 NEET because unavailable for work. In terms of safeguarding, the Ward is home to 8.8% of the Borough’s Children in Need (CiN), 12.1% of the Borough’s children subject to a Child Protection Plan (CPP) and 10.3% of the Borough’s Children in Our Care (CiOC).

Considering Community Safety, the Ward was the location for 22.1% of the Borough’s recorded crimes; 26.0% of domestic abuse crimes; 14.1% of recorded criminal damage and arson offences; 21.8% of recorded theft offences (excl. burglary, vehicle crime or robbery); and, 17.7% of all recorded anti-social behaviour incidents.

In comparison with the Borough the North East and England, the Ward was the location for a higher rate per 1,000 people in respect of recorded crimes; criminal damage and arson; and, theft offences (excluding burglary, vehicle crime or robbery). In comparison with the Borough and England the rate of anti-social behaviour incidents per 1,000 people was higher. In comparison with the Borough, the rate per
1,000 people in respect of domestic abuse crimes was higher. Considering fires, the Ward was the location for 0.096% of all the secondary fires in England and 0.037% of the deliberate primary fires in England.

In terms of **Economic Regeneration and Transport**, compared with the Borough, the North East and England overall, the Ward is home to more residents aged 16 – 64 and aged 18 – 24 claiming Job Seekers Allowance (JSA) or Universal Credit; residents who have elementary occupations; residents who are process, plant and machine operatives; residents who work in sales and customer service occupations; residents who travel to work on foot; and, residents with no qualifications. Further comparison with the Borough, the North East and England overall shows that the Ward is home to lower proportions of residents who are self-employed; and lower proportions of residents who have a degree. In comparison with the Borough, the Ward has a higher proportion of residents who travel to work by bus or train, this proportion is lower when compared with the North East and England.

Comparing the Ward with the Borough overall, it is home to fewer households likely to have a net annual income of <£15K; more households likely to be find it difficult/very difficult to cope on income; and, more households unlikely to hold a current account; more households likely to use Facebook every day; more households likely to use Twitter every day; and average proportions of households likely to surf the internet everyday/most days.

Regarding **Environment and Housing**, the Ward is the location for 17.7% of the Borough’s fly tipping removals. Compared with the Borough, the North East and England, the Ward is home to greater proportions of households in fuel poverty; residents who are social renters; and, residents who are private renters. In contrast, the Ward has a much smaller proportion of house owners.
The mean and median (average) house prices for all sold property is lower than for the Borough, the North East and England.

In comparison with the Borough overall, the Ward is home to more households in Council Tax band A. At the same time, it is also home to fewer households in the following Council Tax bands: B, C, D, E and H. There are no households in Council Tax bands F and G.

Considering **Health and Wellbeing**, the Ward is home to worse than the England average numbers of mothers who smoke during pregnancy; low birth weight babies; mothers who breastfeed; children who are ‘not ready’ for school; 11 year olds who are obese; people aged over 16 who binge drink, people who are unemployed; new cases of cancer; completed NHS checks; and, life expectancy. It is also home to worse than England numbers for emergency admissions to hospital (all causes, chronic heart disease, stroke, myocardial infarction and COPD); and, causes of death (all causes, all causes <75 years, cancer, circulatory disease and respiratory disease).

In terms of **Strong Communities**, broadly speaking, the Ward has a smaller proportion of residents aged 0 – 19; residents aged 65+; and a larger proportion aged 16 – 64 than is the case across the Borough, the North East and England. Also, in comparison with the Borough, the North East and England overall, the Ward is home to a larger proportion of families with dependent children; BME population; and a smaller proportion of residents identifying as Christian; and no residents who identify as non-Christian.

Around three quarters of the Ward population aged 18+ is registered to vote and 33 young people aged 16 and 17 are registered thus.

*PLEASE NOTE: If there is no data shown against the Ward name – either in a chart, or table in this Ward Profile – this means that the actual data value is 0 (zero). It does not mean that the data is missing.*
**Most Dominant Household Group – HG4 Transient Renters**

*(37.3% of all households in the Ward)*

*(10.7% of all households in the Borough)*

The most likely key features of this group are:
- Private Renters
- Low Length of Residence
- Low Cost Housing
- Singles and Sharers
- Older Terraces
- Few Landline Telephones

The most likely characteristics of this group include:
- Most are likely to be aged 18 - 25
- Household income likely to be between £20k - £29k
- Household composition likely to be ‘single’
- Likely to have no children
- Likely to be renting properties from Private Landlords
- Likely to live in Terraced Properties

This group is most likely to have the following health characteristics:
- Most are likely to be in very good or good health (77%)
- 7.5% are likely to be in bad or very bad health
- 22% are likely to have health problems or a disability which limits work/activities
- 45% are likely to not take exercise

This group is most likely to have the following communication channel preferences and habits:
- Preferred methods of contact is likely to be email (58%) and post (13%)
- 95% are likely to access the internet daily or several times a day

**Second Most Dominant Household Group – HG7 Municipal Challenge**

*(26.2% of all households in the Ward)*

*(8.8% of all households in the Borough)*

The most likely key features of this group are:
- Social Renters
- Low Cost Housing
- Challenged Neighbourhoods
- Few Employment Options
- Low Income
- Mobile Phones

The most likely characteristics of this group further include:
- Most are likely to be aged 56 - 60
- Household income likely to be under £15k
- Household composition likely to be ‘single’
- Likely to have no children
- Likely to be renting from the either the Council or HA
- Likely to be living in Flats

This group is most likely to have the following health characteristics:
- Most are likely to be in very good or good health (74%)
- 9.6% are likely to be in bad or very bad health
- 39% are likely to have health problems or a disability which limits work/activities
- 59% are likely to not take exercise

This group is most likely to have the following communication channel preferences and habits:
- Preferred methods of contact is likely to be email (56%) and post (18%)
- 94% are likely to access the internet daily or several times a day
Adult Services

*Our vision is that people can get the right level and type of support at the right time to help, prevent, reduce or delay the need for ongoing support and maximise their independence.*

NOTE: The proportion of childcare places taken per Ward is calculated by dividing the number of childcare places taken up by the number of eligible children per Ward. Because parents can choose childcare provider, it is not always the case that they select a provider in the Ward they live. The proportional take up may therefore exceed 100%.

0.24 -0.08 -0.23

Stockton Town Centre Ward Stockton on Tees Borough North East England

NOTE: Attainment 8 measures a student’s average grade across eight subjects – the same subjects that count towards Progress 8. The eight subjects fit into three groups: English and Maths; English Baccalaureate (Ebacc - the highest scores from the sciences, computer science, geography, history and languages); and, the Open group (any remaining GCSEs and other approved academic, arts or vocational qualifications).

NOTE: Progress 8 measures a student’s progress between Key Stage 2 and Key Stage 4 across eight key subjects. It shows whether students have performed to expectation, based on a value-added measure using Key Stage 2 English and Maths as a baseline. It's checked by getting a sample of Year 11 students to sit English and Maths reference tests in March before their June GCSEs. Progress 8 only compares schools with similar intakes and is designed to encourage schools to offer a broad, well-balanced curriculum and is used towards determining the ‘floor standard’ for schools.

- 70.4% likely to use Facebook everyday/most days
- 25.7% likely to use Twitter everyday/most days

ERT16 - % of households likely to surf internet everyday/most days
ERT17 - % of households likely to use Facebook everyday/most days
ERT18 - % of households likely to use Twitter everyday/most days
Environment and Housing

Our vision is to make the Borough a better place to live and a more attractive place to do business with clean streets, carefully tended parks and open spaces, affordable and desirable housing.

This section provides information about each of the following subjects:
- Fuel poverty
- Fly tipping
- House prices
- Home ownership
- Council Tax

Big plans for our places and open spaces
Fuel poverty estimates are published at Lower Super Output Area (LSOA) level and are modelled drawing from national data included in the English housing survey. Caution must be taken when inferring trends from the figures as there are instabilities associated with the estimates and an unknown level of accuracy. Additionally, Ward level estimates have been calculated using a “best-fit” approach using the LSOA estimates. This further impacts on the quality of figures so further caution is advised. Published LSOA data can be found here: https://www.gov.uk/government/statistics/sub-regional-fuel-poverty-data-2018

Health and Wellbeing

Our vision is for a place where people are supported to be healthy.

This section provides information on each of the following subjects:

- Pregnancy, babies and children
- Alcohol
- Cancer
- NHS Health Checks
- Mental Health
- Life Expectancy
- Emergency admissions to hospital
- Mortality and causes of death

Big plans for the health of our people
Note:
- Data included in the above infographic is collated from sources HWB1 – HWB13
- All of the data used to create the infographics represent what happens in an average year in this Ward, using the most recent data available.
- See D1 - D12, D98 and ERT2 on Source Data sheet for population, deprivation and employment.
Strong Communities

Our vision is for communities that are diverse, cohesive, caring and vibrant.

This section provides information on each of the following subjects:
- Population by age
- Families and Dwellings
- Ethnicity
- Religion/Belief
- Voter registrations
- Multiple deprivation

Big plans for helping our communities prosper
