Stockton Town Centre Market

As part of the Town Centre transformation the iconic 700 year old traditional market has now been relocated to its new home in the heart of the town. Known locally as "The Queen of the North" the market boasts 100 stall units and there's a massive range of quality goods and fresh local produce at market prices. The market is centrally located and with a great atmosphere and bustling stalls, this traditional market is one not to be missed - every Wednesday, Friday and Saturday. You can get one hour free parking in several Town Centre short stay car parks, or if you want to stay a little longer its £1 for three hours.
